# Load NC-codes from USB drives under Linux

Goto **Settings manager**

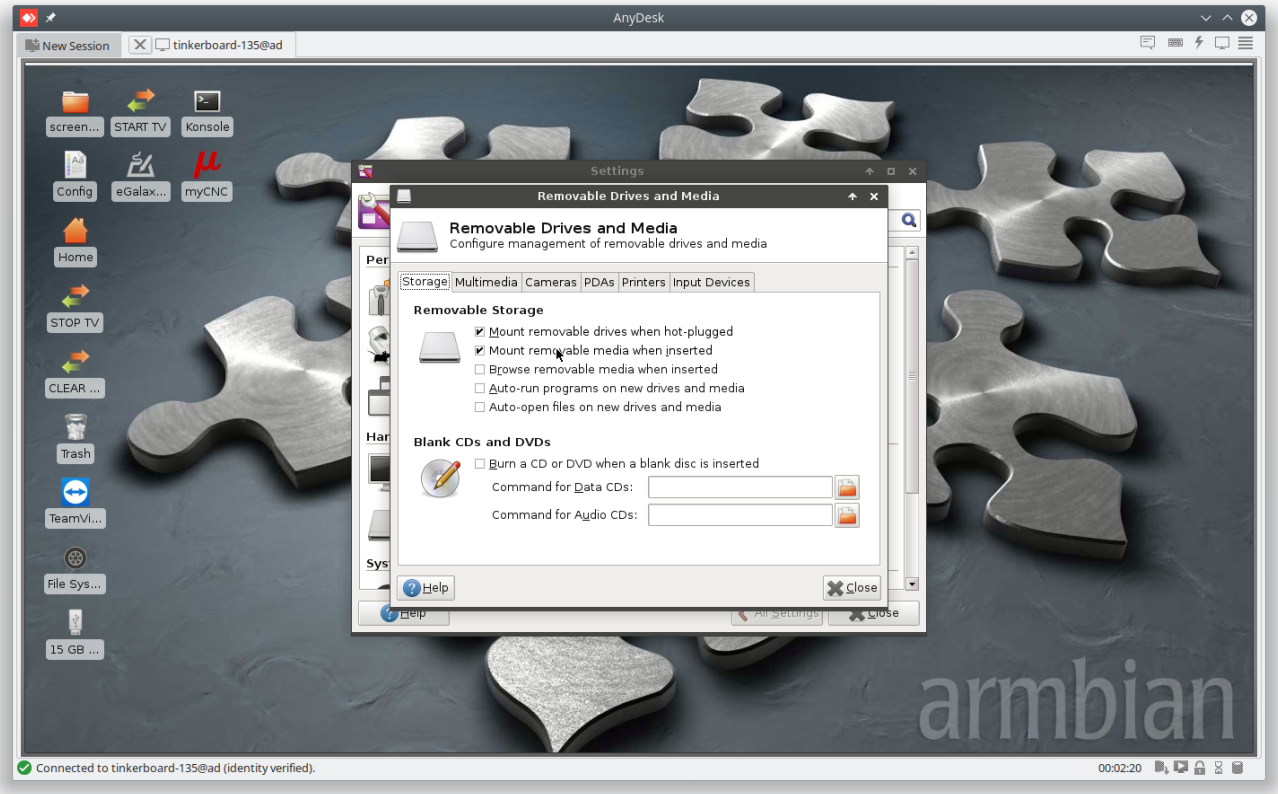

Find **Removable drives and Media** Icon and open it

Check **Mount removable drives...** and **Mount removable media....**

press **close**

After it USB flash drives will be automatically mounted into the system folder **/media/operator** when inserted.

```
System automatically mounts flash drives into folder /media/user_name
user_name is your user name
for Tinkerboard images we provide the foolder is
/media/operator

for LiveCD a default user name is "mycnc" and the folder is
/media/mycnc

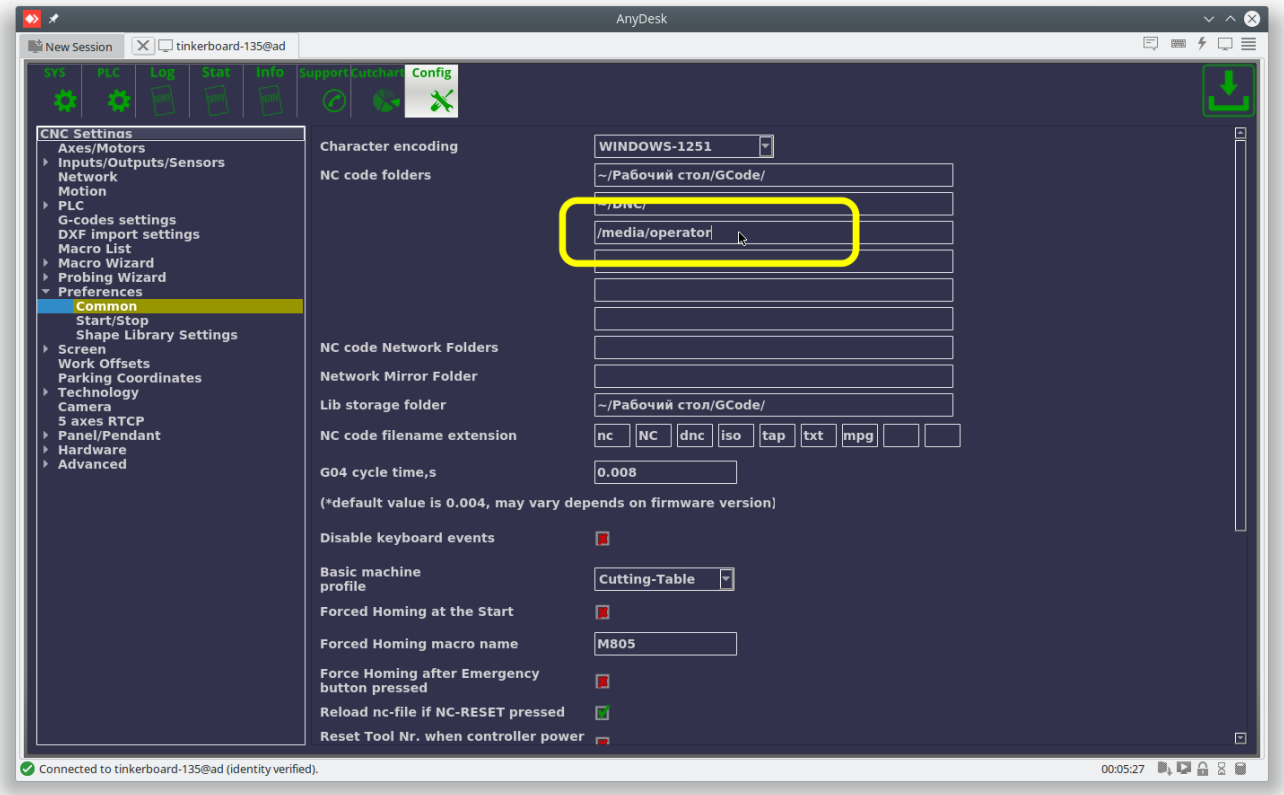

If you change your user name, use this name accordingly
```

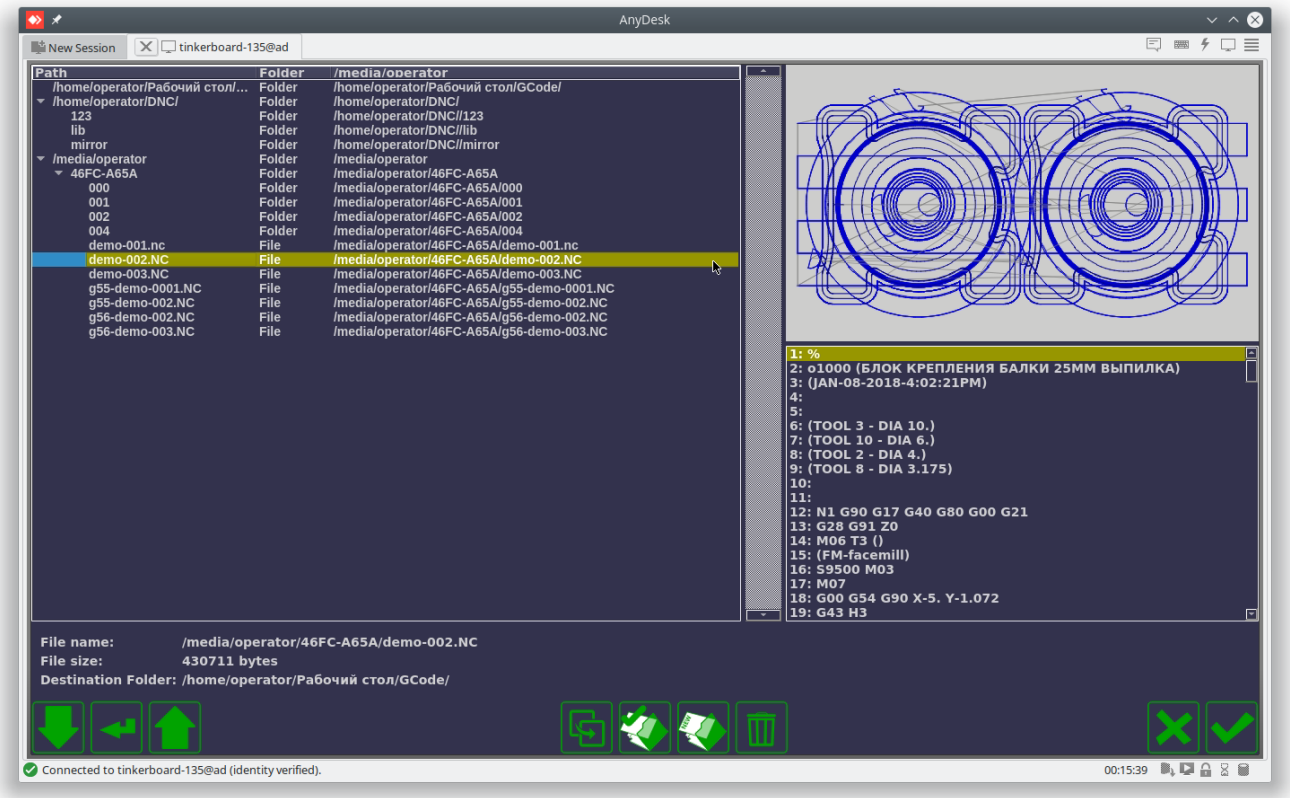

Goto **myCNC software Config Preferences NC code folders**

Add folder name where USB flash drives will be mounted -

**/media/operator**

and press **Save**
